Professional summary

Newly graduated IT student with enthusiasm and self-motivation, and eager to learn. I have demonstrated experience in web development projects and C#, PHP, JavaScript, HTML, and CSS programming. Passionate about database management, dynamic interfaces, and clean code. I seek a position where I can apply the IT knowledge I have learned so far, improving my skills, and building my experience in a challenging and goal-oriented work environment.

Work History

King Fahd Medical City - Web developer trainee
Riyadh
06/2021 - 07/2021

- I have created custom websites by harnessing HTML, CSS, and JavaScript skills.
- Designed web pages to enhance branding and navigation.
- Managed databases with solid SQL skills.
- Established project milestones and ensured all team members were well-prepared to meet deadlines.
- Produced design renderings readily understood by technical and non-technical audiences.
- Translated project requirements into forward-thinking visual designs.
- Evaluated project specifications for technical feasibility, security risks, and user experience concerns.
- Facilitated code reviews and pair programming to produce clean, high-quality code.
- Automated functions using C#.
